This is for those who died on the 7th of July, passed tragically  
and the many more that are gettin' killed in Iraq as we speak  
Our bombs that we taxpayers are paying for  
everyday we're slaving more, you're wrong saying we aint at war  
56 losses that's what intelligence said  
In Iraq, they'll never tell us how many are dead  
And In the event that's up to our government  
They don't show the numbers, (Why?)  
'cos the public can't stomach it  
How can you represent truth & freedom  
when you're pillaging & killing innocent humanbeings  
That is something Iraqi youths are used to seeing  
So tell me truly, what do you believe in?  
They've been telling us lies for years, still we wanna listen  
The public got a shield for the guilty politician  
Now at the end of the day, why are they sharing their views?

'cos I never seen The Queen or Tony Blair on the tube

Let me live my life  
With your your prejudice  
Why am I getting frisked, I aint no terrorist  
Let me live my life  
Evidence is irrelevant 'cos we're a threat and defence will get rid of it  
Ever since September 11 they've been obsessed,  
opression is what's happening

Let me live my life  
Forget arrest on the spot, death sentence, leave my people alone, just let them live

These days we can't even bop through Oxford Circus  
without pointless coppers tryin to stop and search us  
what's the purpose, why you wanna bother me  
Increase security? Pff, tell them to fix up their foreign policy  
I can't even sit on the tube with my walkman and listen to tunes  
without them getting suspicious and rude  
Watching closely at the things that I do  
why are you so intrested bitch, Im probably more british than you  
Gotta talk safe on the phone, for years I had the same digits  
with \_ try n take you to court for a train ticket  
Don't argue, just listen instead  
ID Card a step closer to a chip in your head  
there's a bomb scare,  
they ask me, what? Where? Who? Why?  
It's not fair

How many muslims have blonde hair and blue eyes

so think twice  
Of who you try to bother  
You're just as likely to be that suicide bomber

Let me live my life  
With your your prejudice  
Why am I getting frisked, I aint no terrorist  
Let me live my life  
Evidence is irrelevant 'cos we're a threat and defence will get rid of it  
Ever since September 11 they've been obsessed,  
oppression is what's happening  
Let me live my life  
Forget arrest on the spot, death sentence, leave my people alone, just let them live

Police shot an innocent man, 5 times in the head  
No militant plan, just died 'cos he ran crying and fled

Do they really want us to riot and ride on these feds?  
Yea maybe violence will have the desired effect  
The other day a man got shot on the tube It's ill  
If you were his fam, Imagine how you would feel  
On the news, you never see the truth reveal  
face it the truth is muslim racists that they shoot to kill  
It's all gone wild, they got us locked down in compounds  
Evidence is not found, no trial, this needs to stop now  
And they got the nerve, to say we're hostile  
Forget crackhouses, they're raiding Mosques now  
I wish I could say that the future's bright  
But It's not and It can't so I choose to fight  
What have you got in your heart bud, you decide  
'cos everyday they're abusing our human rights

Let me live my life  
With your your prejudice  
Why am I getting frisked, I aint no terrorist  
Let me live my life  
Evidence is irrelevant 'cos we're a threat and defence will get rid of it  
Ever since September 11 they've been obsessed,  
oppression is what's happening  
Let me live my life  
Forget arrest on the spot, death sentence, leave my people alone, just let them live
